

A Team Effort in Portsmouth

Portsmouth Harbour

Problem

A grounded 60ft training yacht that had suffered engine failure in Portsmouth harbour required recovering so that the entrance could be re-opened.

Brief

To remove the yacht from the busy harbour entrance and get crew and vessel back to safety.

Solution

Our master using his own initiative proceeded promptly to the site and arrived in time to secure a line to help the grounded yacht. Towing the yacht back to safety where the crew were safe and handed to the lifeguard at Gosport.
